FULL STACK DEVELOPER

Full Stack Developer with strong expertise in modern web technologies and end-to-end application development. Experienced in building scalable solutions using React.js, Node.js, and MongoDB, with a proven track record in IoT platforms, real-time systems, and secure access control. A proactive team player who collaborates cross-functionally, delivers high-performance applications, and continuously improves through feedback and learning.

TECHNICAL SKILLS

Languages	: JavaScript, TypeScript, HTML5, CSS3, C++
Frontend	: React.js, React Native, Angular (basic), VueJS
Backend	: Node.js, Express.js, RESTful APIs
UI/UX	: Responsive Design, UI Component Libraries, Design Systems, UX Specifications, Figma
Databases	: MongoDB, MySQL (Basic)
IoT & Integration	: LLM Integration, Smart Meter Systems, Real-time Data Processing
Development	: Version Control, Code Reviews, Documentation, Optimization Techniques, Agile/Scrum
Tools	: Git, GitLab, VS Code, Postman, npm/yarn
Soft Skills	: Team Leadership, Cross-functional Collaboration, Client Communication, Mentoring, Technical Guidance, Problem Solving, Verbal and Written Communication, Self-Management, Feedback-driven Learning

EXPERIENCE

Full Stack Developer	May 2025 - Present
<u>NNIT</u>	Hyderabad, Telangana (On-site)
- Led end-to-end development of a large-scale EnTech platform using React.js, Node.js, and MongoDB. - Integrated LLM-based systems to deliver smart insights and enhance platform intelligence. - Built a real-time Smart Meter Data Gateway capable of handling data from 100K+ devices with high throughput and reliability. - Developed a secure Role-Based Access Control (RBAC) system to manage user permissions and ensure data security. - Ensured high performance, reliability, and security across the platform through optimization and best practices. - Collaborated closely with cross-functional teams including product managers, designers, and QA to deliver features on schedule. - Participated in code reviews, architecture discussions, and sprint planning to maintain code quality and team alignment.	
Software Developer	Jan 2025 - May 2025
<u>TalentTrise Technokrate</u>	Nagpur, Maharashtra
- Developed and maintained cross-platform mobile applications using React Native for live client projects. - Worked simultaneously on various live React Native and React.js projects, maintaining high code quality and ensuring project deadlines. - Led and mentored interns by assigning tasks, reviewing code, and providing technical guidance. - Managed client communications on the technical side, gathering requirements, providing updates, and delivering solutions. - Collaborated closely with the Figma design team to enhance and implement intuitive and visually appealing UI/UX. - Successfully optimized the performance of ongoing projects, achieving up to 80% improvement in load time and responsiveness. - Practiced agile methodologies, participated in standups, sprint planning, and code reviews across React Native and React.js teams.	
Frontend Developer	Jan 2024 - Dec 2024
<u>Avalanche Hi-Tech Enterprise</u>	Nagpur, Maharashtra
- Built reusable UI components in React.js, aligned with design systems and accessibility best practices. - Worked directly with UX designers and backend engineers to ensure functional delivery. - Used agile methods (Scrum, sprints) to deliver features on schedule and meet team goals. - Implemented REST API integrations and optimized for performance and scalability. - Wrote clean, well-documented code and maintained version control workflows. - Contributed to team discussions and retrospectives to continuously improve project quality. - Actively learned new tools and frameworks to support growing team requirements.	

PROJECTS

Vshop E-commerce Platform	React.js, Express.js, MongoDB, Material UI	<u>Live Demo</u>
- Built responsive, scalable frontend with component-driven React.js architecture. - Used Material UI for UI consistency and UX responsiveness.		

- Integrated RESTful APIs for real-time product display and checkout.
- Handled edge cases and error states with graceful degradation.
- Worked collaboratively and followed agile best practices.

React Resume Builder	<i>React, JavaScript, Git</i>	Live Demo
• Developed form-based resume builder with reusable components in React.js. • Applied clean architecture principles and component isolation. • Implemented responsive layout to support various device sizes. • Improved UI through iterative feedback and user testing.		

EDUCATION

Bapurao Deshmukh College Of Engineering <i>B.Tech (Computer Engineering)</i>	Sevagram, Maharashtra <i>Jun 2020 – 2024</i>
New English High School <i>HSC</i>	Wardha, Maharashtra <i>Jun 2020</i>
New English Junior College <i>SSC</i>	Wardha, Maharashtra <i>Jun 2018</i>

PERSONAL INITIATIVES

Continuously build personal projects to apply software engineering knowledge, explore new technologies, and enhance problem-solving skills. These projects showcase a commitment to learning and adapting to real-world software challenges.
